In solidarity with Earth Hour, the world's largest grassroots movement for the environment, the University enjoins everyone to participate and signify pledges to ensure a living planet for the generations to come.

In coordination with the Crisis Management Committee, the University will observe the following activities on **Saturday, March 30, 2019**:

- a) **carless/motorless** day inside the campus, and
- b) **"lights out" hour** (all non-essential lights are to be switched off) from 8:30 pm to 9:30 pm

On top of the aforementioned activities, everyone is encouraged to be conscious and consistent in continuously observing practices that protect our planet for a sustainable future, both inside the campus and in our respective communities. Our pledge means our future! Let us all connect to our mother Earth.

Thank you.
