

## **SDG 10: Reduced Inequalities**

UST has always been an advocate of equality which was expressed through different policies, programs, and accessibility. We made sure to implement disabled access to every building present within the university. As discrimination has been a societal issue, the university adapted and continuously upholds RA 7610 which tackles discrimination and other underlying societal issues.

BUTIL scholarship allowed 78 students from six different communities to be a part of the university student body. Part of the program is for them to receive allowances. This will be of substantial help in assisting them in their studies. Bonded University Towards Imbued Learning (BUTIL) Scholarship Program aims to support financially underprivileged yet deserving junior and senior high school students from public schools of six partner communities. The BUTIL scholarship program intends to give every student the opportunity to have quality education to develop their academic performance and holistic growth.
